

Song: I am Listening (A song written for my dear Protons)

Balu

*I am listening, I am listening,*

*To your song as you spin. (precession in field)*

*I am listening, I am listening,*

*To the ballad bound in the string. (coil)*

*I am listening, I am listening,*

*To the chorus, in harmony. (chemical shift)*

*I am listening, I am listening,*

*To the long, coherent melody. (radiation damping, maser)*

*I am listening, I am listening,*

*To the scales that softly drift, (chirping)*

*As you reach and join another, (distant dipolar field)*

*And the music begins to lift.*
